SUNSHINE BOOKROOM
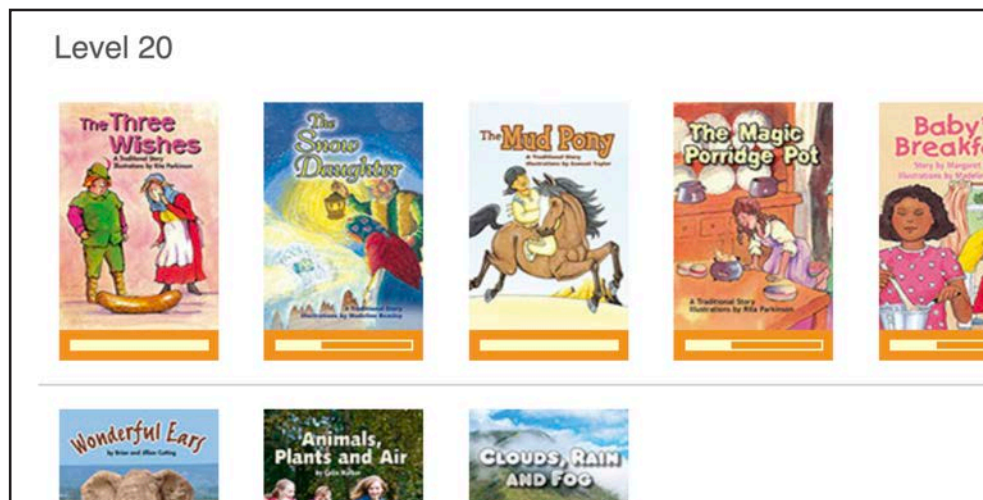

Single Student Subscription
Quick Start Guide

1. **Log in from the "Student Login" button with your username and password.**

2. **The single student subscription gives the user access to the complete library of 110 e-books and activities.**

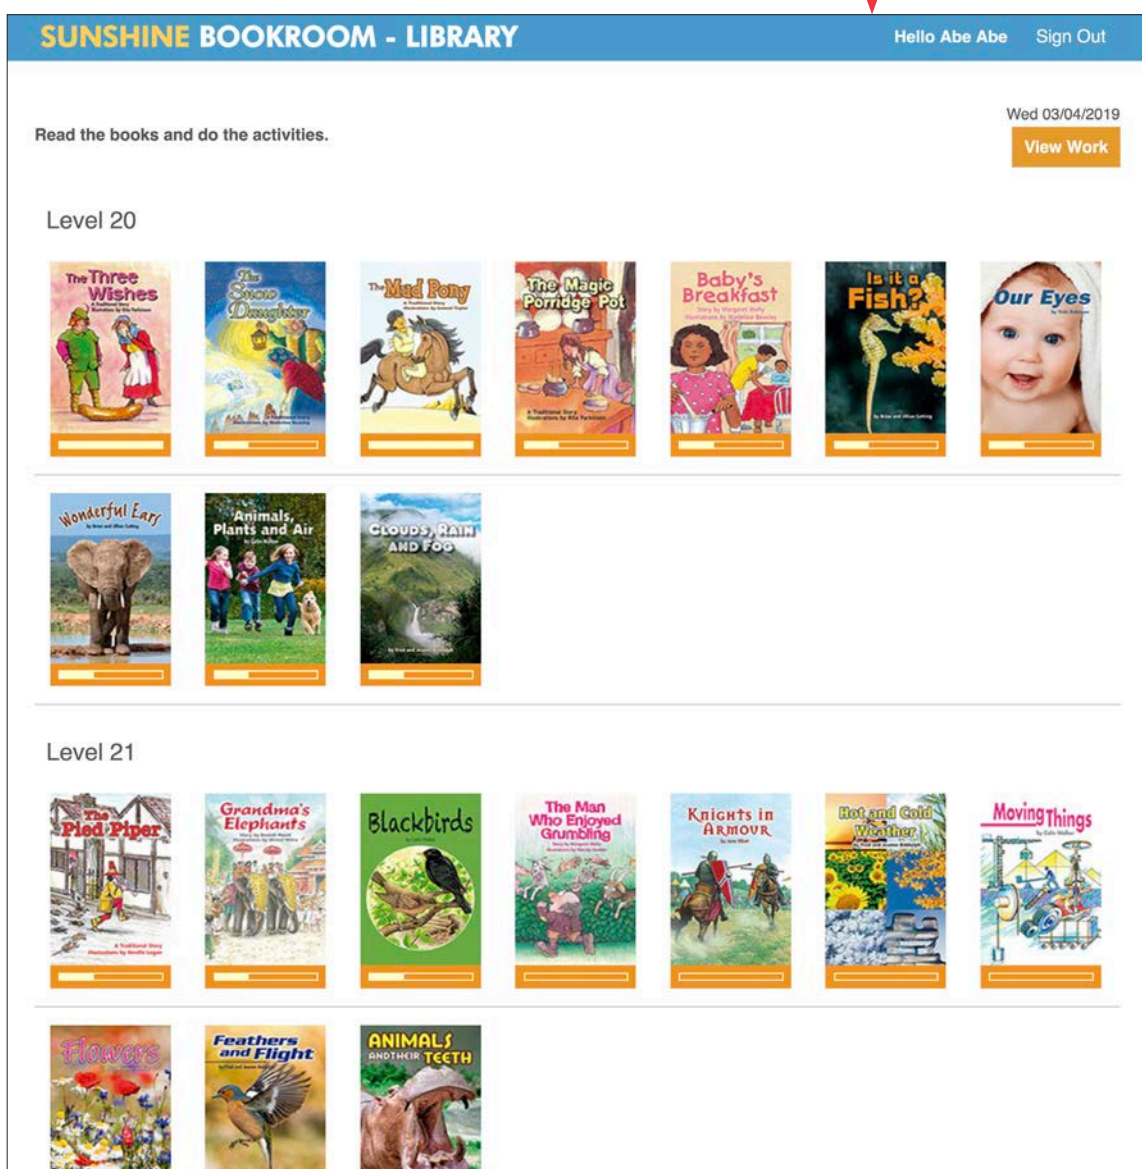

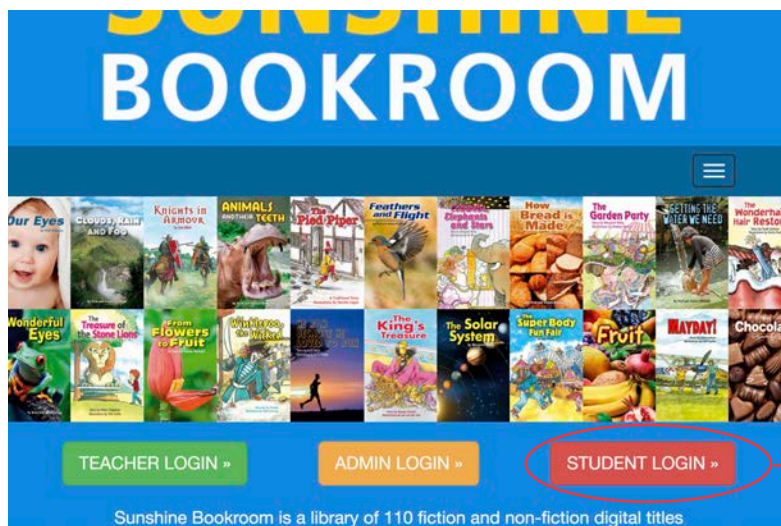

Read the following steps to learn more...
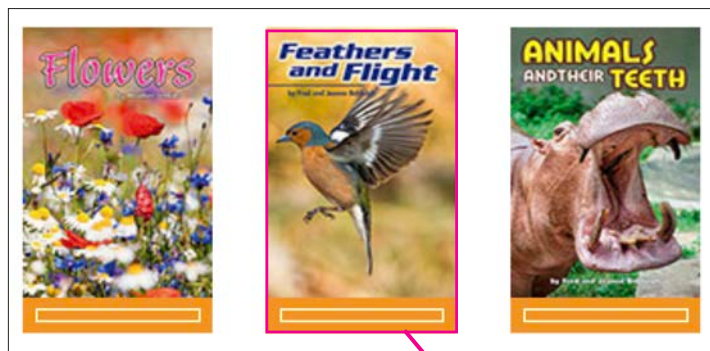

Logging In

The "Single Student" subscription gives the student access to the complete library of 110 e-books and activities, without any management system. The user can log in using the username (email address) and password that is included in the sign-up email.

Go to *sunshinebookroom.com* and log in from the "Student Login" button.

The E-books

From their Library, students click on a title to download the book and its activities.

Tap or click the text to hear the text read out with high-lighting.

*Tap on each side to navigate forward or backward through the book.*

Click **Start your Timer** to get a timed read.

The arrow opens and closes the navigation bar.

These arrows navigate backwards and forwards through the book.

Library takes the student back to their Library and exits the book.

The pen opens the toolbar showing the pen tool, the eraser, a colour palette and a white text box.

Pages shows thumbnails of the pages of the book.

The E-books - Levels 20-30

The student selects the text to hear the page read. The text will highlight sentence by sentence.

Captions and labels are clickable and read out seperately from the main text.

The Activities

The Activities menu comes at the end of the book. There are three activities associated with each book - Writing, Thinking and Record.

After each activity is saved, the student will see a message stating that the data has been saved successfully.

The results are saved, and are accessible to the student.

Writing activity

The **Writing** activity provides opportunities for students to write about their reading and to innovate on the text.

Read Book gives access to the text for reference.

They can save their work to view later or print.

Thinking activity

The **Thinking Activity** is a quiz that explores the student's comprehension of the e-book. The answer they select is highlighted in red. They can change their answer, but not once they have selected **Next.**

Body Feathers

Body feathers lie on top of the down feathers and also help keep the bird warm. The body feathers of different birds are different shapes and colours.

Some birds, such as the ptarmigan (*tar-me-gin*), have body feathers that match the colour of the bird's surroundings. This is called camouflage and it helps the bird hide from its enemies.

The ptarmigan is brown in summer so that it can blend in with the rocks.

This male golden pheasant has very brightly coloured body feathers.
6

In winter the ptarmigan's feathers are white so that it can hide in the snow.

Activities

☐ go to what **Writing**

☐ ??? **Thinking**

☐ 🎤 **Record**

≡ **Back to Library**

Do the following writing activity.

Writing Activity
Feathers and Flight   ◄ Activities

📖 Read Book

Write an explanation about how feathers are used and how birds look after them.

Birds have feathers and they are very useful. Feathers keep birds warm from when they are babies and have down to when they are adults and they need feathers to fly. Some birds use feathers to find a mate. Some birds put oil on their feathers so they don't get wet.

Print

Save

Read the question and choose the correct answer.

Thinking Activity
Feathers and Flight   ◄ Activities

📖 Read Book

1. What makes birds different to all other creatures?

A. They can fly.

B. They have feathers.

C. They have beaks.

Save & Next ▶

Record activity

The **Record** activity allows students to record their reading of a selection from the text.

1. Select **Go** and move through the text using the red arrow - bottom right.

2. When finished, select **Stop** to stop the recording.

3. There will be a speaker icon to listen to the recording before saving.

   If satisfied, click **Save** to save the recording.

Notifications and Results

On completion of each unit of work, the student will get a notification to view the results.

In the **My Results** section, **View Details** is now unlocked, and the user can click on this to see their results in more detail.

Recordings are saved and can be accessed from the **Listen** button.

The **History** button displays the results of previous saved activities.
